

An Informative Two-Day Seminar:

MIOSHA Construction 10-Hour Course

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This 10-hour program presents an overview of MIOSHA regulations for the construction industry. Detailed information is presented to enable the participant to develop an accident prevention plan as required by Rule 114 of MIOSHA Construction Safety Standard Part 1, General Rules. An overview of MIOSHA inspection procedures is presented, as well as the most frequently cited MIOSHA violations in the construction industry. Participants gain detailed information regarding construction and health standards relative to the industry. Emphasis will be placed on recognizing hazards and describing safe work practices to eliminate or control those hazards. **Students will receive both MIOSHA and OSHA 10-hour cards upon successful completion of the class.**

Agenda

- | | |
|--|--|

Required Class for
Construction Level One
MTI Certificate

This course has been approved for both residential builders pre-licensure and continuing safety training requirements.

All meetings are accessible and barrier free. Please contact the cosponsor or the CET Division, at least 30 days in advance, to request necessary accommodations.

Facilitator

Mark Ginter is a Construction Safety Consultant with the Consultation, Education, and Training division of MIOSHA. Mark currently provides consultation and training services for counties in Mid-Michigan including: Arenac, Bay, Clare, Genesee, Gladwin, Gratiot, Huron, Isabella, Mecosta, Midland, Montcalm, Saginaw, and Tuscola.

Mark is passionate about partnering with employers and their employees to promote and develop safe work practices so they can grow their business. He firmly believes that safety is not an accident and that by working together everyone can go home injury free every day. Before coming to MIOSHA Mark worked in the construction and building materials industry for over 20 years. In addition to experience as a carpenter in both commercial and residential settings, he has experience in: construction project management, power equipment and safety training, material distribution and logistics, employee development, and material manufacturing. Mark has a broad range of experience in utilizing safety training and standards to meet ISO requirements, develop operational excellence, improve employee retention, and improve financial performance.

Mark is a graduate of Central Michigan University with a Bachelor of Science degree in Psychology as well as a Master's degree in Business Administration from Northwood University.
